Although we do not sell plants online we are pleased to provide you with this partial listing of our plant offerings. We sell most of our perennials in one gallon containers with the larger perennials in two gallon containers. The list changes yearly so come for a visit or give us a call for more information on the available varieties.

Phlox *subulata* (also known as Moss Phlox or Creeping Phlox) for use in the front of a garden, in rock gardens or as a ground cover. This plant flowers best in full sun to slight shade, it is approximately 6” tall and flowers in May.

Varieties:	<i>Amazing Grace</i>	White petals with red eye
	<i>Apple Blossom</i>	Pink and white flowers
	<i>Crimson Beauty</i>	Rosy red flowers
	<i>Crimson Blue</i>	Lilac flowers
	<i>Scarlet Flame</i>	Deep rose petals with scarlet eye
	<i>Crimson White</i>	Pure white flowers

Sempervivum *Tectorum* (also known as Hens & Chicks) for use as an edging or rock garden plant. This plant likes a sunny location and is only a few inches tall when not in flower.

Varieties:	Standard Green	
	<i>Cobweb Buttons</i>	Pink flowers

Achillea species (also known as Yarrow) is a mid-sized perennial for use in a cottage garden or a rock garden. Plant Yarrow in full sun, in a somewhat dry location. It grows to 30” tall and will bloom early in the season and again in the fall if you cut it back after the first bloom.

Varieties:	<i>Fireland</i>	Fire engine red flowers age to soft apricot yellow
	<i>Paprika</i>	Ruby red flowers with distinctive yellow center

Allium *cernuum* (also known as Nodding Pink Onion) has attractive bright pink nodding flower heads bloom above grasslike foliage. This plant prefers part sun to shade and grows to 18” tall. It is beautiful in rock gardens or a naturalized setting.

Aquilegia (also known as Columbine) is a wonderful spring blooming perennial that will self-sow which makes it an ideal choice for cottage gardens and woodland settings. Columbine prefer a somewhat shady location.

Varieties:	<i>Biedermeier</i>	Light pink flowers
	<i>caerulea Songbird Mix</i>	Large flowers with lovely mix of rich colors
	<i>vulgaris Black Barlow</i>	Double purple-black blossoms resemble tiny Dahlias
	<i>vulgaris Winky Blue & White</i>	Blue and white flowers
	<i>vulgaris William Guinness</i>	Dark purplish black w/contrasting white flowers

Astilbe are beautiful perennials for the shade garden, their tall plumes of color add the contrast and spark often missing in the shade. They are ideal for a moist, shaded garden or at water's edge.

Varieties:	x arendsii <i>Amethyst</i>	Fluffy lavender spikes - early bloomer
	x arendsii <i>Bella</i>	Shades of pink – mid bloomer
	x arendsii <i>Erika</i>	Slender plumes of clear pink flowers - mid-summer rebloomer
	x arendsii <i>Fanal</i>	Red flowers – early bloomer
	x arendsii <i>Sister Theresa</i>	Salmon-pink plumes over bluish-green foliage-early bloomer
	chinensis <i>Milk and Honey</i>	Creamy white to light pink, marbled foliage -mid/late bloomer
	chinensis <i>Visions</i>	Light pink plumes – mid bloomer
	japonica <i>Deutschland</i>	White flowers – early bloomer
	japonica <i>Montgomery</i>	Wine-red plumes - mid bloomer
	simplicifolia <i>Key Largo</i>	Bright pink plumes above fine foliage mid/late rebloomer
	x Rosea <i>Peach Blossom</i>	Rose flowers – mid bloomer

Astrantia Major Rosea (also known as Masterwort) is a charming cottage garden flower beloved by butterflies. Unusual delicate star-like blooms that can be used as a fresh cut flower. The flowers are dense 2-3" diameter domes of tiny florets, backed by stiff, petal-like bracts, usually referred to as a 'collar', all held above the foliage on wiry stems. Very easy to grow, the optimum site for Astrantia would be partial shade with a well-drained soil.

Baptisia australis (also known as False Indigo) is a stunning shrub-like perennial for the back of the border or center of an island garden. This plant likes the sun to slight shade and is heat and drought tolerant. Although it dies back at the end of each season it grows to be 4' x 3' each season with beautiful flower spikes above the blue-green foliage.

Varieties:	<i>Carolina Moonlight</i>	Soft yellow flower spikes above blue-green foliage
	<i>Purple Smoke</i>	Violet flower spikes on strong upright charcoal grey stems
	<i>Midnight Prairieblues</i>	Deep blue flowers with secondary shorter blooms extending bloom period for up to a month

Brunnera macrophylla Variegata (also known as Siberian Bugloss) has baby-blue flowers in mid-late spring above green heart shaped leaves with creamy-white irregular leaf margins; some leaves become almost white. Wonderful shade garden or woodland planting. Grows 12-15" tall.

Chelone obliqua (also known as Turtle Heads) are a wonderful fall blooming perennial for a shady, moist area. They are one of the last flowers to bloom and grow to between 2 and 3' tall.

Varieties:	<i>Glabra</i>	White flowers
	<i>Hot Lips</i>	Pink flowers

Coreopsis Moonbeam is a carefree perennial for a full sun location. It grows to 18" tall with soft yellow flowers all summer.

Dicentra (also known as Bleeding Heart) are wonderful old fashioned plants for the shade garden. The Fringed variety grows to only 12" and flowers well into the summer and the traditional old fashioned variety grows to 32" blooming in late spring.

Varieties:	<i>eximia</i> Fringed Bleeding Heart	Heart shaped pink flowers from late spring/early summer on short fern like foliage
	<i>spectabilis Alba</i>	Delicate heart shaped white flowers in late spring
	<i>spectabilis Pink</i>	Delicate heart shaped pink flowers in late spring

Echinacea purpurea (also known as Coneflower) is a great perennial for naturalizing, in borders or as a cut flower. The Coneflower loves a sunny, dry location and grows from 24-36" tall.

Varieties: *Pink Double Delight* Double flowering, rich pink flowers
purpurea Purple flowers from summer to early fall

Geum coccineum Borisii (also known as Avens) is a pretty little old fashioned plant is splendid for borders, rockeries and cottage gardens. It prefers full sun and grows 12 to 18" tall and has showy orange-red blooms above low growing textured foliage

Hemerocallis (also known as the ever popular Daylily) is one of our favorite perennials. This plant loves a full sun to partial shade position and will grow in most any soil.

Varieties: *Addie Branch Smith* Deep lavender w/purple eyezone to 30" Tall w/4" bloom
Ann Abbott Rose self w/green throat to 28" tall w/6" bloom
Bama Music Pale pink w/ yellow eyezone to 32" tall w/4-5" bloom
Chicago Royal Purple bi-tone w/green throat to 32" tall w/7" bloom
Darius Purple /blue violet eye w/green throat to 22" tall w/4 1/2" bloom
Dewey Fresh Light lemon yellow to 36" tall w/4" bloom
Hamlet Purple w/ purple halo to 18" tall w/3-4" bloom
Hearts Afire Red w/yellow throat to 36" tall w/4 1/2" blooms
Ice Carnival Cream to almost white to 28" tall w/5" blooms – rebloomer
Just So Apricot w/rosy flush and green throat to 22" tall w/4" bloom
Little Wart Lavender self w/green throat to 24" tall w/3 1/4" bloom
Miss Ozie Cream white blend w/star dusted lavender & pal cream throat
Patricia Fay Vibrant rose self w/sm yellow/green throat to 32" tall w/5" bloom
Purple de Oro Medium dark purple w/lighter midrib & edge above gold throat to
Route Sixty Six Black-red w/deeper eyezone w/yellow-green throat to 24" tall w/4 1/2" bloom – rebloomer

Siloam June Bug Deep Gold w/black-purple eye to 23" tall w/3" bloom – rebloomer
Stella d' Oro Yellow w/paler yellow eye to 18" tall w/3" bloom – rebloomer
Summer Splendour Apricot with pale midrib to 36" tall with huge 6" bloom
Summer Wine Deep purple/pink flowers w/yellow throat to 24" w/4" bloom

Heuchera (also known as Coral Bells) is a fabulous foliage plant for a shady or partial sun area. They grow to 18" tall and send up wispy flowers above the foliage.

Varieties: *micrantha Palace Purple* Shades of purple foliage with white flowers

Hostas are well known foliage plants to make a statement in your shade gardens, with a few that will do well in the sun. Although they have either lavender or white flowers they are grown for their varied foliage.

Varieties: *Gold Standard* Leaves emerge light green and become progressively more gold towards early summer; do well in partial sun; pale lavender flowers on 30" scapes; 36" w x 20" h
Frances Williams Blue-green round puckered leaves with a wide golden border; early white flowers; shade to 1/2 sun; 63" w x 28" h;
Hyacinthina Broad, firm, heart-shaped leaves are deep gray-green on top and glaucous blue below; their heavy substance makes them highly; slug resistant; shade to partial shade; pale lavender flowers on 30" scapes; 36" w x 22" h
Tokudoma Flavocircinalis Heavy substanced, dark blue-green leaves with a gold

	border with early near white flowers; partial sun to full shade; 48" w x 17" h
<i>Royal Standard</i>	Large mounds of wavy, green, glossy, pointed leaves demonstrate both sun and drought tolerance; fragrant, white flowers on 35" to 40" scapes in late summer; 40" w x 24" h
<i>Variegata</i>	Dramatic, narrow, lance-shaped wavy leaves with white centers edged in green, making it very striking; shade to partial shade; lilac flowers; 24-36" w x 18" h
<i>Ventricosa</i>	Gorgeous dark green leaves, especially attractive when grown in a mass planting or ringing a tree; shade to partial shade; beautiful lavender variegated blooms on tall scapes; 36" w x 28" h
<i>Wide Brim</i>	Deep green rippled leaves with buttery edges and light purple flowers; half day sun to mostly shade; 24-36" w x 20" h

Lavandula angustifolia *Hidcote* (also known as Lavender) has fragrant purple stalks on gray-green foliage. Requires a sunny, protected location and good drainage. Outstanding in borders, for dried flowers and arrangements.

Liatris spicata *pycnostachya* (also known as Gay Feather or Blazing Star) is a native American perennial that produces tall spikes of bright purple bottlebrushes above the tufts of green, grass-like leaves in late summer. This plant prefers full sun and is outstanding in borders, the flowers are good for cutting and drying.

Monarda didyma (also known as Bee Balm) is a wonderful, tall scented perennial that will grow to fill a large area. It prefers full sun to partial shade and grows to 3' tall depending on the variety. Use in a mixed border, mass plantings and for cut flowers. The hummingbirds and butterflies love them.

Varieties:

<i>Blue Stocking</i>	Deep violet flowers to 3' tall
<i>Gardenview</i>	Extra large scarlet blooms to 3' tall
<i>Snow White</i>	Whorls of pure white flowers 24-30" tall
<i>Raspberry Wine</i>	Wine-red blooms 2-3' tall
<i>fistulosa Claire Grace</i>	Soft pink flowers to 3' tall

Penstemon species *Chocolate Drop* (also known as Beard Tongue) is an old fashioned plant that forms a small foliage mound with 24" tall flower spikes above. The bell shaped flowers are deep purple to almost black and flowers early summer Use this plant in a mixed border in full sun to partial shade.

Penstemon strictus *Rocky Mountain Blue* (also known as Beard Tongue) is another variety of the Penstemon having elegant bluish purple spikes in early summer.

Perovskia atriplicifolia (also known as Russian Sage) is a hardy perennial with talc-white stems and pewter-blue foliage on branched sprays of lavender flowers. Plant in a full sun location with plenty of room where it will grow 3-4' tall.

Phlox paniculata (also known as Tall Garden Phlox) is a mainstay in most perennial gardens. These hardy, care-free plants are perfect for the back of the border, are late flowering and attract butterflies and hummingbirds. Plant in full sun and enjoy.

Varieties:

<i>Blue Boy</i>	True blue fragrant flowers to 30" tall
<i>Blue Paradise</i>	Brilliant cornflower blue/violet flowers 36-40" tall
<i>David</i>	White fragrant flowers 30-36" tall
<i>Eva Cullum</i>	Pink flowers with red eye 24-30" tall

<i>Nicky</i>	Deep saturated magenta flowers 3-4' tall
<i>Orange Perfection</i>	Orange fragrant flowers to 30" tall
<i>Starfire</i>	Red fragrant flowers 30-36" tall

Platycodon *Sentimental Blue* (also known as Balloon Flower) this front of the border perennial grows to only about 6" tall and acquires its nickname from the beautiful blue bloom that forms a "balloon" and then opens to a four point flower. Plant this one in full sun to partial shade.

Polemonium *caeruleum* (also known as Jacob's Ladder) this perennial has fern-like foliage with lovely bright blue flowers climbing up the "ladder". It enjoys full to partial sun and will grow to 30" tall.

Salvia *nemorosa Blue Hill* is a long hoped for color break in garden Salvia, with its bluer flowers and compact habit. It is insect and disease resistant, long flowered and tough. This plant attracts birds, butterflies and bees. If you cut it back after the first flush of blooms it will reward you with another flush in late summer to early fall. Also available is ***White Hill*** which is a white flowering variety. Both grow 18-24" tall and prefer full sun.

Sedum (also known as Stonecrop) is one of the last perennials to flower each season making it a great addition to any flower garden. This late bloomer requires full sun and likes a dry spot. Their thick, succulent leaves are able to withstand drought and rainy weather. Leave the flower heads in place for winter interest.

Varieties:	<i>Autumn Joy</i>	Pink to rust flowers 12-18" tall
	<i>Brilliant</i>	Gray-green leaves w/ rose-colored flower heads 12-24" tall
	<i>Matrona</i>	Pink flowers w/ rigid purple stems & gray-green foliage 18-24" tall
	<i>Purple Emperor</i>	Rose-red flowers atop dark purple almost black foliage 18-24" tall
	<i>spurium Tricolor</i>	Green & snowy-white foliage w/overlays of pink & pink flowers only 4-6" tall

Tradescantia x *andersoniana* (also known as Spiderwort or Widow's Tears) is a great perennial for a shade or moist garden. It is attractive planted with Irises and Daylilies.

Varieties:	<i>Zwanenberg Blue</i>	Vibrant Blue flowers summer to early fall
	<i>Red Grape</i>	Bright magenta-red flowers on gray-green foliage

Trollius *chinensis Golden Queen* (also known as Globeflower) are undemanding perennials that look best *en masse* and are the perfect choice for the waters' edge, a boggy spot, or the border, given a moisture retentive, organic-rich soil and shelter from hot sun. The golden-orange bloom is 2-3" wide, bowl-shaped with upright stamens. 24-36" tall.

Verbascum *mullein* add a pretty and dramatic vertical accent to any garden. Cut the main flower spike to encourage further blooming. Be sure Verbascum receives well-drained soil as wet soil will often lead to its demise. Full sun is also required. We have this perennial in assorted colors from pinks and purples to peach or white. They flower from June to August and are up to 3' tall.

Veronica *spicata Sunny Border Blue* (also known as Speedwell) is a full sun, clumping perennial with lance-shaped, crinkled, and toothed, glossy green leaves. Speedwell bears erect, sturdy flower spikes up to 7 inches long. The flowers are tubular, dark violet-blue and occur from early summer to late fall. These flowers are great as cut flowers and also will attract butterflies into the garden. The plant reaches 18-20 inches in height and 12 inches in width. Sunny Border Blue makes a wonderful rock garden plant and should not be kept too wet.
